

BRYANT DUCTLESS

Helping Dealers Exceed Customer Expectations Every Time

Heating & Cooling Systems

**PRODUCT FAMILY
BROCHURE**

WHY BRYANT?

Our ductless solutions allow you to provide efficiency, performance and innovation—all in a feature-rich system.

HIGH EFFICIENCY

With efficiency ratings of up to 28.5 SEER2 and 18.0 HSPF2 and ENERGY STAR® certifications on several ductless models, our Bryant® ductless systems provide improved temperature regulation and increased energy and cost savings.

QUALITY PERFORMANCE

Our solutions deliver quality performance across a broad range of temperatures for year-round comfort control. Our ductless systems can heat in temperatures as low as -22° F and cool in those as high as 122° F.

COOL INNOVATION

Our constant innovation allows us to create high-performing ductless solutions that keep all users in mind. Customers can enjoy personalized control and reliability with individual remote controls and the Bryant ControlBox App for a full home or single room.

The Bryant ControlBox App is available from the App Store® and Google Play.™ Features are intuitive and easy to navigate.

We're Here to Support You and Your Customers

At Bryant, we understand that your customers expect more comfort, control and performance from their HVAC system. We are committed to providing you with what you need to be successful and exceed these expectations, every time.

No matter the challenge, no matter the space, Bryant ductless is the HVAC solution your customers have been looking for.

Visit the [Bryant Rebate Center](#) to see eligible products and incentives for your area.

Google Play™ is a trademark of Google Inc.

App Store® is a service mark of Apple Inc.

Wi-Fi® is a registered trademark of Wi-Fi Alliance. ENERGY STAR® is a registered trademark of the U.S. EPA.

PROVIDE MORE VALUE WITH DUCTLESS

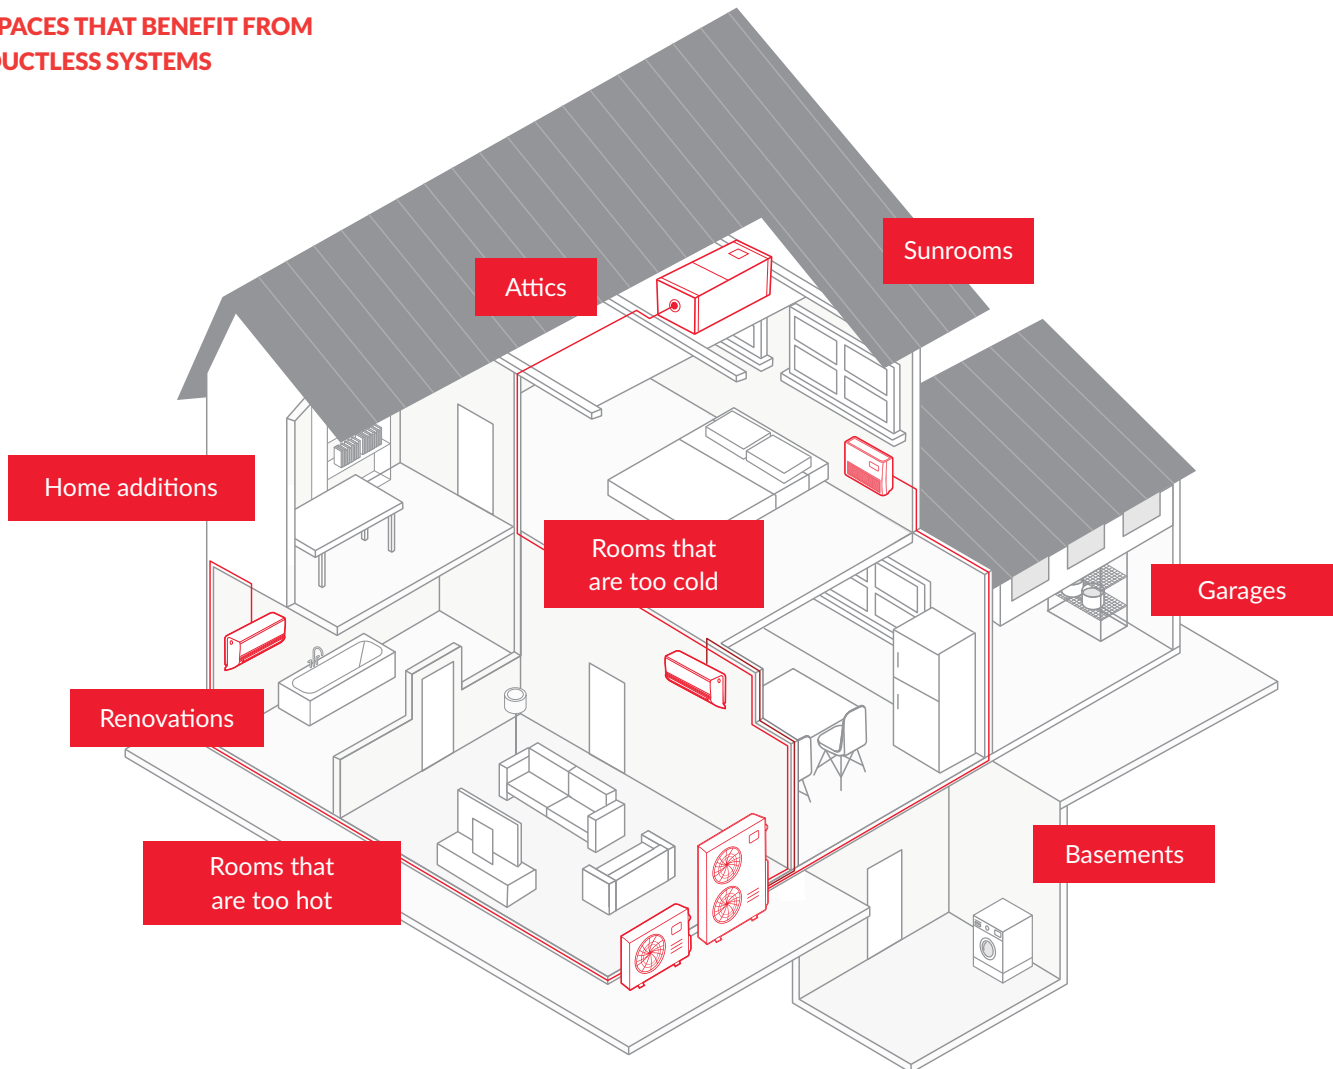

To help you stay competitive and successful, Bryant offers a family of flexible ductless solutions that fit a range of needs. Extremely efficient and high-performing, these systems help solve your customers' biggest heating and cooling challenges.

Versatile HVAC Systems for Endless Comfort Possibilities

Ductless systems are unique, generating climate-controlled air without the use of traditional ductwork. Compact and sleek, they can be used in single or multiple zones to create endless possibilities for personalized HVAC systems.

Ductless indoor units integrate neatly into a space. They're installed in the least obtrusive but most effective area to quietly direct air to every corner of the room. And the indoor unit(s) simply connects to the outdoor unit with a hidden conduit.

SPACES THAT BENEFIT FROM DUCTLESS SYSTEMS

**SINGLE ZONE
RESIDENTIAL**

**EVOLUTION™
SYSTEM**

9-18k BTUh

Up to
28.5 SEER2

Up to
18.0 HSPF2

38MPRB Outdoor Unit
SIZES: 09/12/18

619PHB High Wall
SIZES: 09/12

619PHB High Wall
SIZE: 18

KEY FEATURES

- + All systems with ENERGY STAR® certification
- + Built-in occupancy sensor
- + Built-in Wi-Fi® for smart phone control
- + Humidity control
- + High-heating capability
- + Built-in basepan heater
- + 24V Interface Kit compatibility

**LEGACY™
LINE**
